

Module Catalogue from ENREM 2023

Double Degree Master Program
"Environment and Resources Management"
Focus Latin American

Offered at

Multidisciplinary Postgraduate Program for Environmental Sciences (PMPGA),
Autonomous University of San Luis Potosi and
MSc "Maestria en Ciencias Ambientales"

and

Faculty Spatial Development and Infrastructure Systems (F12),
TH Köln - University of Applied Sciences
MSc "Natural Resources Management and Development"

1. Course Description	2
2. Module Catalogue for the double degree master program ENREM at F12 and PMPGA	4
3. Recognition Curricular Structure Double-Degree	9
4. Transfer Grading System	10
5. Sample Study Plans	11

1. Course Description

The basic concept of the double degree master program ENREM is built upon the two accredited master programs:

- **Maestría en Ciencias Ambientales** at the Programa Multidisciplinario de Posgrado en Ciencias Ambientales - PMPGA from Universidad Autónoma de San Luis Potosí (UASLP), Mexico
- **Master in Natural Resources Management and Development** at the Faculty Spatial Development and Infrastructure Systems (F12) from TH Köln University of Applied Science (TH Köln), Germany

Successful graduates of the program receive a degree of each university:

- **UASLP:** *Maestría en Ciencias Ambientales*
- **TH Köln:** *MSc Natural Resources Management and Development*

1.1. Structure of the Double Degree Master Program ENREM at WS2022/2023

The first, second and third semesters consist of mandatory and elective modules, while the fourth semester is focus on the master thesis and defense (colloquium).

The master's curriculum is a systematic combination of both university programs, based on mutual recognition of the modules.

Table 1: Structure of the Master Program

1 st Semester <i>Mexico</i>	2 nd Semester <i>Mexico</i>	3 rd Semester <i>Germany</i>	4 th Semester <i>Latin America or Europe</i>
Problemática y Gestión Ambiental	Seminario Multidisciplinario	Project III: Implementation and/or Evaluation	Master Thesis Research
Desarrollo Sustentable	Seminario Propuesta de Tesis	Master Thesis Preparation	
	Trabajo de Tesis 1	Trabajo de Tesis 2	Trabajo de Tesis3
Ecología	Diseño y Evaluación de Proyectos de Investigación	Environmental Economics and Governance	Master Thesis (Writting)
Estadística	Four Elective Modules	Four Elective Modules	Master Thesis Defense (Colloquium)
Intercultural Seminar - Field Visits - Expert Seminars - Tandem Work			
Mandatory Modules			
Mandatory module with choice from offered topics and of supervisor(s) (Practice-oriented)			
Elective module from the module catalogue			
Extracurricular activities to improve soft and communication skills			

1.2. Mandatory Modules

The mandatory modules during the program are organized in:

- **6 Core Modules:** Problemática y Gestión Ambiental, Desarrollo Sustentable, Ecología, Estadística, Diseño y Evaluación de Proyectos de Investigación, and Environmental Economics and Governance
- **2 Project Modules:** Seminario Multidisciplinario, and *Project III: Implementation and/or Evaluation*
- **5 Thesis preparation Modules:** Seminario Propuesta de Tesis, *Master Thesis Preparation*, Trabajo de tesis 1, Trabajo de tesis 2, Trabajo de tesis 3
- **Master Thesis (writing) and Defense (Colloquium)**

1.3. Elective Modules

The elective modules in the second and third semesters are organized in two blocks, one in the area of "Electives for the double degree master program ENREM" and the other from the "Methods and Tools" catalogues.

The students need to select a **total of eight elective modules** in the second (4 electives) and third (4 electives) semesters:

- A **minimum of 4 modules** are required from the "**Electives for the double degree master program ENREM**" module catalogue from *Programas Multidisciplinarios de Posgrado en Ciencias Ambientales* at UASLP and *Natural Resources Management and Development NRM* at F12 (See table 3.)
- A **minimum one (1) module** is required from the "**Methods and Tools**" module catalogue from PMPCA and F12. (See table 4.)
- The **remaining 3 modules** can also be selected from the adjoining master programs module catalogues "Integrated Water Resources Management IWRM and Renewable Energy Management REM F12/PMPCA" (See table 5. and 6.) or from the module catalogue Methods and Tools F12/ PMPCA or from the module catalogue „Electives for ENREM master program“.
- In the **second semester** are required to take a **minimum of 2 elective modules offer be PMPCA**.The remaining 2 elective modules can be selected from this catalog and are offered by IPICYT, IMAREC, Postgraduate Water Technology.

2. Module Catalogues Double-Degree Master Program ENREM at PMPCA and ITT

4. Transfer Grading System

In order to cope with the grading system of the two universities, a common transfer system has been developed and is presented below.

- The TH Köln transfers the grades of Autonomous University of San Luis Potosí according to the following transfer table:
- Autonomous University of San Luis Potosí transfers the grade of the TH Köln according to the following transfer table:

Table 7. Course grades from PMPCA to TH Köln

Mexican Grade	German Grade	Designation
10	1.0	Very good
9.9 - 9.6	1.3	
9.5	1.3	
9.4 - 9.1	1.7	
9.0	2.0	Good
8.9 - 8.6	2.3	
8.5	2.3	
8.4 – 8.1	2.7	
8.0	3.0	Satisfactory
7.9 – 7.6	3.3	
7.5	3.3	
7.1 – 7.4	3.7	
7.0	4.0	Sufficient
6.5	5.0	Failed

Table 8. Course grades from TH Köln to PMPCA

German Grade	Mexican Grade	Designation
1.0	10.0	Approved
1.3	9.5	
1.7	9.0	
2.0	9.0	
2.3	8.5	
2.7	8.0	
3.0	8.0	
3.3	7.5	
3.7	7.0	
4.0	7.0	
5.0	6.5	Failed

5. Sample Study Plans
